The Greyhound Profit system

The Greyhound Form System (In 15 months out of 1760 selections 1250 won from evs to 8/1)

1)The Greyhound Profit System

Operate this method; a copy of the Racing Post will be needed. You can view a copy

on

the internet at: www.racingpost.co.uk and go to the greyhound section. Look at the

racecards for each of the 4 morning and afternoon BAGS cards, plus the two meetings

immediately after the end of the afternoon BAGS, these normally start at 6.28pm and

6.39pm.

These are now the races we concentrate on. Under each of the races throughout the

whole days cards the Racing Post's Greyhound Tipster selects that he thinks will

finish in

that order. We are only interested in which Greyhound he tips to win the race, his

first

selection from the 3 Greyhounds listed.

Going through the card each day you will soon be able to get your selection or

selections

marked off in a matter of minutes. To find the selections, the Greyhound tipped

must be the

2nd favourite in the betting forecast, and also qualify on at least *TWO* out of the

following

three rules. If it qualifies on all three rules, then it is a Nap bet and worth a little

extra.

1. The forecast favourite must be 2/1 or over.

2. It must be the fastest dog on its last run. (Normally the Greyhounds last five runs

are

listed, you require the most recent as the sample below)

29Nov 470m [2] 4.46 3444 4th 6 Queen Tanga, *Crd1* 28.73 -30 4/1 A4 28.91

As per

the

sample below.

This system has stood the test of time and still makes substantial profits day after day throughout the BAGS cards.

SYSTEM2

GREYHOUND FORM SYSTEM

From April 2006 until 31st July 2007 the system generated 1786 selections which

produced

over 1250 winners with prices ranging from Evens to 8/1.

The system works from 4 easy to follow rules which under no circumstances should

be

altered in any way. If a Greyhound does not meet all the criteria then you will find it

best to

leave as in the long term profits can severely suffer.

1. From the days cards note down all the Greyhounds with the following last two

form figures, excluding trials: 11, 12, 13, 21, 22, 23, 31, 32. These are the positions

that the Greyhounds finished in their last two races.

2. From those Greyhounds that you have selected delete any that have been moved up a grade since their very last run. If their last run was in an A6 and they

are now running in an A5 and so on.

3. From those Greyhounds that you have left as possible selections check the

following with the Sporting Life online Greyhound section:

www.sportinglife.com

The race card prints just one time per dog as in the example below, any selections

that you have left must not be one of the two fastest in the race. So in the example

below, trap one has the last form figures of 22 (remember that in the Sporting Life

the last two form figures are on the left, not the right like other publications.)

It is

still

running in an A5 race and Trap 6 (30.45) and Trap 2 (30.57) have quicker times

than Trap 1 (30.62). So far Trap 1 is still a selection.

4. Delete any Bitchies where their seasons have been suppressed. This can also be

found in the Sporting Life racecard. Look at Trap 3 it states that it is a Bitch by the b

under the time we were looking at in rule 3, and to the right of that is the word

suppressed. All dogs that are still in after rule 3 automatically qualify as a selection
