My "GETIN GRABIT ANDGETOUT RUITINE"

This is not only for the platinum selections but a Sencible way through out betting  
IF YOU WISH TO PROFIT

I am aiming it at the Platinum selections because we have a HUGE OPPORTUNITY HERE with  
it.

Because of the large number of Selections  
Now before I get started those of you who havent a clue about the platinum selections ,let me  
explain

The Platinum is based on my faithfull assessor gold software, which I over a period of time  
witnessed a loophole which I felt would be and make an upgraded version  
based on 5 years of trials to get to todays version

but I WILL NEVER SELL IT AS AN UPGRADE TO the gold version

But I am Willing to share the selections and is available NOW to all

I will say now to those faithfull members a BIG thankyou who have invested there hard earnt on  
the discounted subscriptions and subscribed for 1 and 2 years a BIG thank you  
ok

ALL Brittish racing cards have 1 selection each and at present across the board  
The Platinum Selections

**HAVE A 80% STRIKE RATE (To Date)78.85% Actually**

**WE HAVE PLACEBETS 67.74% strikerate**

**Place Win WON selections at 47.62%**

**and LAY at 75.6%**

**that is a MASSIVE 149 SELECTIONS**

**SINCE THE 2ND OF AUG WITH 114 CORRECT  
SELECTIONS**

So many punters are looking for that pot of gold at the end of the  
rainbow that eludes them , the HOLY GRAIL of selection finding

This my friends is it.

**BUT YOU DO HAVE TO KNOW how to profit from it.**

Like all betting

I can make a profit from 23% strike rate selections yes

***I never tell lies***

so Iam making a killing with these .

The secret its no secret really its common sence

which without insulting anyone is a problem which effects us all  
KNOWING NOT WHEN TO BET  
BUT WHEN TO STOP

STOPPING IS AS IMPORTANT AS STARTING ONLY ,NO  
ACTUALLY MORE IMPORTANT.

And is the hardest thing ,for Gamblers and all betters alike,  
especially when we have up to 45 selections in a day .

Ok I am using this FREEbie as an advert for my platinum  
selections because of the Volume of selections available.  
But this approach to your betting can be used what ever system or  
methods you use.

IF YOU ONLY WANT TO BET AND NOT TO PROFIT

THEN FORGET it and do not read any further because you will  
be wasting your time.

HERE BELOW is how I make money every day  
with my "GETIN GETON GRABIT and GET OUTAGAIN"  
Ruitine

and is IDEAL for my platinum because of the quantity of  
selections

A)First YOU MUST be willing to put forward an amount YOU  
would be happy making in a day

Dont be rediculous and say o right £500 aday that would be  
fantastic sure it would BUT you have to be realistic and start fairly  
low and is dependant on your bank, start with say £100 bank

ok NOW say Ok then I want to make £10 a daythats £300 amonth  
£3600 ayear and I know for a fact that most punters miss out

because they DONT Plan are not sensible and dont employ this tactic.

Would an Extra £3600 be handy TAXFREE hell of course it would .

A good starting place because as you make money you can increase your aim .

I make with this an easy £18000 extra a year tax free thats only £50 a day.

So it is possible but you will have to be very STRICT with your self

So let start with trying to make £5 to £10 a day ok.

With the platinum selections it is easy we have to employ and DONT BE AFRAID TO use these betting ways PLACE BETS , win bets and lay bets do them all

Utilise your betting armoury

I do know that laying for a lot of folk is scary ,but it really is not so.

With the platinum I give place bets or place win, I always suggest that the first as in place win is safest being the place bet ,but sometimes if your selection is low like 1.23 as an example,then you may want to bet and risk the win bet which will be higher price, but more of a risk, only you can say what you want to do say your first bet is the place one at 1.23 to make your £10 you will have to put 10.00 in your calculator divide it by .23 thats £43.50 to make £10 which for me with my bigger bank is ok but when you first start you will not want to risk this much so either lower your aim to £3 or £5 this will drop the amount you are risking or look at the win amount and if there is between 4 and 10 runners a win bet might be the answer again that will be up to you .

Let say we choose the less risky option place bets £3 at 1.23 thats £13 and say it wins great thats £3 profit less commission deduct

this from your £10 aim and next bet/bets you are trying to get the remainder of the aim, if you lose the bet which will happen then you have to add the loss to your daily aim and either chip away with bets to get your aim or do larger bets with more risk, either way do what suits you and your bank, and it does not matter what the bet is same thing applies place-win or lay use them all.

In the lay side of things some of our selections will be too high a price TOO RISKY my maximum I ever lay is 2.2 these days some times up to 3.5 but let me let you into a secret that most will probably know anyway

Lets look at lay betting , the more runners in a race the less likely the favourite will win, BUT THE HIGHER THE RISK PRICE and I know from experience that the fav in these races I will never be able to lay the price given so I ask in running for a lower price I ask for my total amount I want to earn say I need £25 so I can STOP for the rest of the day I ask for the fav to lay £25 for say 1.55 or less in running, what we need is a horse that does well in the final 3 furlongs , our low bet gets taken then it loses to another horse and you will be amazed how many times this can happen.

### **3 things can happen when betting like this**

- 1 ) Our bet does not get taken ,as the horse is crap and does not come close to winning.
- 2) Our bet gets taken but then it wins we lose our bet
- 3) or the one we want it gets taken and it loses WE WIN
- 4) either ways we are risking not so much money and we carry on as before until we triumph reach our goal and WE STOP.

A great lay bet is this one but only comes off 1 in 10 bets on average

Quantity of runners 5 to 7 runners only our selection fav is a lay bet on the platinum selection

here is 1 I did yesturday

as an example

Selections: (6) 167.2%

	Back	Lay
1 (6) Parks Prodigy Silvestre De Sousa -£5.45	3.9 £17	4 £5
4 (4) Light The City James Sullivan £17.00	3.4 £13	3.95 £30
3 (2) Golden Future Paul Hanagan £17.00	<b>SUSPENDED</b>	
5 (1) Always Dixie Andrew Elliott £17.00	6 £29	6.6 £5
2 (5) Maid Of Meft L. Newman £17.00	5.4 £5	5.5 £8
6 (3) Quitao Kelly Harrison £17.00	46 £16	50 £81

Current Odds bets

	Backer's Odds	Backer's Stake	Payout Liability
Lay Parks Prodigy	1.25	£5.00	£1.25
	1.35	£12.00	£4.20

£17 FOR A £5.45 RISK

£17 Profit for a risk of £5.45

I needed £17 so I could GETON GRABIT AND GET OUT

so I could finish, I started late yesturday

here it is enlarged

Selections: (6) 167.2%

	Back	Lay

Current Odds bets Order by Matched Date

Lay	Backer's Odds	Backer's Stake	Payout Liability
Parks Prodigy	1.25	£5.00	£1.25
	1.35	£12.00	£4.20

as you can see I asked for £5 at a low 1.25  
and £12 at 1.35  
max risk £5.45  
horse was 2<sup>nd</sup>

at beginning prior to off it was a lay bet available of  
4.25 to high for a horse of sp 5/4 ended up 10/11  
You dont always succed with these but I recommend trying them

be prepared to lose some money as some do win and we lose but I  
have had many a time won £50 for a risk of only £5  
I ask as low as 1.10  
remmeber the risk is only .10x£50=£5

**I am still working on this**

I tend to do this 12 runners to 10 runners ask for 1.55 in running  
8 to 10 runners 1.35  
6 to 8 runners 1.25  
is the most taken in running but you can ask fo lower especially if  
say in racing post you have a fav and a 2<sup>nd</sup> fav at nearly same  
price and only 5 runners go lower if you want and increase amount

bet.

Ok thats is an extra way to get your money but overall place  
betting and win bets come succesfully more often  
so utilize all bets available, give your self an aim  
GET on GETin Grabit and GET OUT  
soon as you can

hope this helps works for me  
Best wishes
