Welcome to my ProfitPunter's 10 Plus ProfitPlan

HISTORY

Yes this system / method I have been using for 15 years now, I look at it as a long term 'INVESTMENT', let me explain some of you already have read this from me before, but about 18 years ago, when I was working in my own retail shops, I had a lot of local business friends and we all used to get together once a month to discuss business and learn from each other, well one day one of my friends /acquaintances went on to ask if any of us did stocks and shares ,which I never did, and as time went by I was put off by some of the losses they made from time to time, But a stime went on they all was interested in my horse racing profits and spreadsheets, any way the long and short of it ,one day one of them asked me if I could come up with a way to transpose their investments using horseracing, which I did, it took me about 6months but I did it using big strike rate low priced easy to find horses. Takes 10 minutes or less daily to find them, some days NO SELECTIONS, longest losing run 6 which in 18 years is brilliant because every system has one from timetotime its the law of averages and if anyone tells you otherwise ,Do Not Believe them.

In the end most of us was doing this in fact the first guy who mentioned stocks and shares and a naturally well off guy went on to do just my system, in 10 years he made £390000 tax free, but he had a big bank and gave up on stocks and shares as an investment possibility he liked the TAXFREE bit or tho in them days I think we did pay a small amount of tax on bets, anyway the systematic approach using spreadsheet and easy to find horses was very very successful.

We are not talking MASSIVE MONEY generally as most DONOT have the capital, available to invest BIG, like he did.

The Main advantage with this methodology is its for all from banks of £25 to banks of £100000, what I am saying is no reason why you cannot start small end up big lol.

It suits all pockets, It is "PROGRESSIVE" the spread sheet tell you when to up your aim, this has to be done in a non greedy manor it is future investment policy, I call it my pension maker, which today even more pensions are getting less and this really can help and if you have a few years to build your betting /investment bank, very big dividends will apply.

I am Going To say HERE AND NOW that PROVIDING you can back up losses by having a big enough bank, OR by being able to put more investment in after losses,

YOU WILL ALWAYS MAKE A PROFIT.

I also have to say what you already know that THERE is ALWAYS a Risk, as in any money system, wether it be stocks and shares OR a Business, there is and has never been a GUARNTEE, but Ive tried business and yes I was lucky I was in business in the good old days ,things where more stable, and quite honestly I couldn't be in business now, it would be a worry and I am older when young you don't worry so much.

But a gambling investment system thats ok for me .

I shouldn't call it an investment, I would probably get wrong for saying that, BUT TO ME IT IS JUST THAT.

So you want in or what , I could charge thousands for this information don't you think

I Only Want to be able to pass on this oppportunity to you at a fair price, so lets see what I am OFFERING you.
